Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claims 1-54 are presented for examination.

Applicants' response filed June 7, 2005 has been received and entered.

Allowable Subject Matter

Claims 1-8 are allowable.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 9-54 are again rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for praline and glutamine, antibiotics, water-soluble polymers or lecithins, does not reasonably provide enablement for all and any composition formulation additive. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention commensurate in scope with these claims.

Applicants' response states that the instant specification contains working examples for various composition formulation additives. The applicants state in Example 2 and Tables 2 and 3 disclose the effect of the addition of praline and glutamine; Example 4 and Table 5 disclose the effect of the addition of an antibiotic; Example 5 and Table 6 disclose the effect of the addition of a water-soluble polymer; and Example 6 and Table 7 disclose the effect of the addition of lecithin to the compositions of riboflavin and/or riboflavin derivatives. However, applicants' claims did

Art Unit: 1614

not recite the important claim limitation in the base claims 9, 19, 39, 48 and 52. The phrase "composition formulation additive" is a broad term and reads on any additive such as water, aspirin or insulin, in which, the applicants do not show any working examples using those "composition formulation additive".

The rejection made under 35 USC 112, first paragraph is adhered to.

Claims 9-54 are not allowed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
